

Jeison Julian Sosa

Blockchain Full Stack Developer

Bogota, Colombia | 302 842 2233 | jeisonsosablockdev@gmail.com

Profile

Bilingual Spanish-English Full Stack Blockchain Developer with a strong specialization in the Solana and Bitcoin SV (BSV) ecosystems, combined with extensive experience in technical support, AI automation, and technical instruction. Proven track record in developing decentralized applications, integrating smart contracts, and optimizing Web3 workflows. Expert at bridging complex technical infrastructure with practical product functionality, driven by high performance, agile development, and deep technical troubleshooting.

Core Strengths

Blockchain/Web3 (Solana & BSV)	Smart contract development
AI automation & agent integration	Web development & full-stack architecture
Technical troubleshooting	Technical mentoring & training
Bilingual support (English/Spanish)	Agile development workflows

Professional Experience

brids.io <i>Solana Blockchain & Full Stack Developer</i>	Jan 2026 – Present Bogota, Colombia
- Lead the development, optimization, and architectural design of brids.io, a crypto fintech application focused on real estate asset tokenization. - Integrate Solana wallet interactions, state compression, Metaplex Core for NFT infrastructure, Vercel deployment, and modern web tech stacks including Next.js, Tailwind CSS, Framer Motion, and NeonDB. - Implement Mapbox 3D features for visual mapping of tokenized real estate assets. - Research zero-knowledge (ZK) privacy protocols for future asset-tokenization workflows.	
3dordi.io <i>Blockchain Full Stack Developer</i>	Jan 2026 – Present Remote
- Design and execute full-stack development tasks with deep BSV blockchain integration and connected workflows. - Strategize and develop Model Context Protocol (MCP) servers to enable ordinal minting via AI agents interacting directly with the 3Dordi.io API. - Ensure seamless communication between decentralized infrastructure and product functionality.	
Asurion / Soluto <i>Premium Technical Support Representative, Bilingual</i>	May 2024 – Jul 2025 Bogota, Colombia
- Resolved complex mobile device and phone-service issues through clear troubleshooting and personalized guidance. - Delivered bilingual support with a focus on high survey outcomes, retention, and practical user education. - Promoted home tech protection plans while balancing sales quality, customer experience, and KPI expectations.	
Asurion / AT&T In-Warranty <i>Bilingual Support Representative</i>	Apr 2024 – May 2024 Bogota, Colombia
- Assisted customers with warranty claims, device replacements, and product support while ensuring policy compliance. - Continued protection-plan sales activity and customer education across support interactions.	
Asurion <i>Customer Care and Sales Representative, Bilingual</i>	Sep 2023 – Mar 2024 Bogota, Colombia
- Provided customer care, product recommendations, troubleshooting, and sales support for home technology users. - Improved customer experience through clear explanations, bilingual communication, and practical issue resolution.	
Concentrix <i>UHG / UHC DSNP Advocate, Customer Support Agent</i>	Oct 2022 – Mar 2023 Bogota, Colombia
- Assisted UHC D-SNP members with accurate plan information and timely inbound support. - Strengthened client communication, empathy, and issue-handling skills across diverse customer needs.	
Bersacon <i>Business Development Representative</i>	Jul 2021 – Aug 2022 Bogota, Colombia
- Managed sales pipeline activity, lead tracking, CRM records, and qualification workflows for B2B opportunities. - Executed omnichannel outreach through email, phone, and social channels to secure strategic demos and meetings.	

Web3, Education & Creative Technology Experience
